HARDING TO DEFEND WORLD COURT PROPOSAL

LIEUTENANTS

PRESIDENT WILL DELIVER A
SPEECH IN NEW YORK ON
TUESDAY AFTERNOON

(By United Press)
Washington, April 21.—President Harding is going to get rough with republican "pessimists and grumblers" who are trying to talk him out of forcing his world court proposal.

Harrassed and badgered, even threatened by some republican senators with a split in the party, Mr. Harding will abandon persuasive efforts to bring them into line and will call what he regards as a bluff on their part.

At the same time Mr. Harding will try to counter-act the effect on the country of the activities of some of his closest republican lieutenants including Senator Watson of Indiana. The president is deeply aggrieved over the statements of Watson and others questioning the political wisdom of pushing the court issue and creating the impression that they believe Mr. Harding is leading the United States into European entanglements.

The president has a strong "hunch" that if he shows Watson, Will Woods of Indiana and others that he cannot be swayed by their pessimistic fears of disaster in the court issue, that they will become silent and at least preserve the appearance of republican unity on the question.

In the speech he will deliver in New York Tuesday afternoon, Mr. Harding if he follows his present plan, will virtually tell Watson and other republicans that they are lining up with the Borah-Johnson irreconcilables by their present attitude, and will dare them to continue that attitude.

HARDING TO ATTACK COAST RUM RUNNERS

Washington, April 21.—President Harding is going to call into play against Atlantic coast rum runners the full powers of the navy, it was learned today on high authority.

War to a finish against the "in-shore" fleet of small boats that run liquor from the booze armada to waiting trucks on the Jersey shore, is expected to be declared within a week.

Swift navy subchasers and cutters with guns mounted probably will be used, it is learned.

Determined that the Volstead act shall be enforced, the president is ready to use any means in his command to end the rum running which he regards as the most menacing phase of the "national scandal" of liquor law violation. He is expected to announce his drastic program early next week.

Just how far the navy will go in chasing the smugglers could not be learned today in advance of the official announcement of the government's plans. Mr. Harding, however, believes the navy can clear the rum fleet out of the twelve mile zone off shore if proof is obtained that the vessels anchored within that zone are violating American law by sending liquor within the three mile zone.

NEW SWEDISH PREMIER NAMES CABINET AIDS

Stockholm, April 21.—M. Trygger, leader of the conservative party, has presented to King Gustav the personnel of his cabinet, formed to take the place of that of Hjalmar Branting which resigned recently.

M. Trygger is premier. The minister of foreign affairs is C. Hederströmer.

The minister of trade is Professor W. H. Wohlin, the agrarian leader, who favors strong protection for Swedish agriculture and who has led a movement to bar American wheat from Sweden.

WOODROW WILSON UNSHAKEN IN FAITH
THAT AMERICA WILL EVENTUALLY JOIN
LEAGUE NATIONS, HE TELLS LORD CECIL

(By United Press)
Washington, April 21.—Woodrow Wilson's faith that America will eventually join the League of Nations is unshaken he told Lord Robert Cecil, British missionary for the league as the two sat over the teacups in Wilson's home here.

Wilson, who was a friend of Cecil, co-author of the league covenant, displayed great interest in Cecil's account of American public reaction to the latest appeal for American membership in the league.

They may meet again before Cecil leaves Monday for New York.

The Britisher was reticent today about his talk with Wilson yesterday. He arrived at the home late in the day without having seen President Harding. Cecil will call on Secretary of Commerce Hoover, a league advocate and a personal friend. Although no appointment has yet been made for him to see Secretary Hughes, they will meet, it was indicated.

ONTANAGON SAVED BY BLASTING ICE JAM ON THE RIVER

WALL OF WATER RELEASED
THREATENING TOWN, Poured
ED INTO LAKE SUPERIOR

TWO BLOCKS OF BUSINESS SECTION
OF TOWN FLOODED
DEPTH OF 3 FEET

(By United Press)
Ontonagon, Mich., April 21.—Ontonagon's business section was saved from a disastrous flood last night when dynamite finally broke an ice jam in the Ontonagon river, and released a wall of water into Lake Superior.

Two business blocks were flooded and six establishments suffered heavy damage.

The ice jam formed yesterday in the channel just below the town. Within a few hours the jam had backed up to the main bridge and the water was rising rapidly. Before dynamite could be procured in a sufficient quantity to blast the jam, the water flooded two blocks of the business section to a maximum depth of three feet.

The C. M. and St. P. depot was flooded and closed.

Other business places flooded were the Glenwood Lumber company, the D. J. Tonsignant Warehouse, Parkers' Grocery, the meat market and the Dunselley dry goods store.

Although no word reached here as to the extent of the flood above town, it is believed damage was confined to the business district. No one was injured so far as could be learned.

STILL EXPLODES; \$10,000 DAMAGE

(By United Press)
Chicago, April 21.—Explosion of a still in a garage in the rear of a 21 story apartment building, drove occupants to the street and caused damage of \$10,000 here today.

RATHBUN RESIGNS, VERGEL APPOINTED

CHANGE RECORDED IN STATE
SUPERINTENDENT OF BANK'S
DEPARTMENT

(By United Press)
St. Paul, April 21.—R. B. Rathbun, state superintendent of banks, today handed his resignation to the governor. This is the second resignation of an appointive of the official in two days and it is known at the capitol others are about to be turned in.

Immediately upon receipt of the resignation, Governor Preus announced the appointment of Adolph J. Vergel, Mankato banker, to fill the position. Mr. Rathbun will continue in office until Mr. Vergel severs his connection with the Mankato bank and gets his affairs in order to make the change. Mr. Rathbun will become cashier of the Produce State Bank, Minneapolis.

CONCILIATORY NOTE RECEIVED FROM MEXICO

(By United Press)
Washington, April 21.—Mexico has sent the United States a communication outlining how far she is ready to go to meet conditions of the Washington government and American recognition, it was learned today.

This communication is understood to have been dispatched a few days ago signaling a resumption of negotiations to bring about agreement between the two countries.

President Harding and Secretary of State Hughes are now giving active consideration to the subject with the hope of effecting a settlement with Mexico and the president has let it be known that he believes the situation is growing more promising every day.

The communication from Mexico is understood to deal particularly with what the Obregon government is doing and intends to do further, toward meeting the position of the United States that lasting guarantees must be given against the retroactivity of article 27 of the Carranza constitution.

May Recognize Obregon Government

Washington, April 21.—A complete statement on the negotiations between the United States and Mexico for recognition of the Obregon government, is likely to be made soon by this government.

This statement, which probably will be made by Secretary Hughes may even bring about American recognition of Obregon just now believed nearer than at any time during the Harding administration.

Officials today said the present status of negotiations was extremely delicate.

The present favorable situation was brought about by a note from the Obregon government to the United States, outlining how far Mexico will go to meet American conditions.

Cecil in Washington to Confer With Wilson

Washington, April 21.—Lord Robert Cecil, reputed author of the League of Nations covenant, came to Washington to discuss with Woodrow Wilson, its chief American champion, the campaign for bringing the United States belatedly into the league.

GASOLINE STOCK RESERVES GROW

(By United Press)
Washington, April 21.—Secretary of the Interior Work announced today that on March 1st gasoline stock had attained a new high level mark of 1,130,000,000 gallons. The figures show a gain of 127,000,000 gallons over reserves on hand February 1 when stocks for the first time in history exceeded the billion gallon mark.

During February it indicated consumption of gasoline was 373,544,000 gallons. The daily rate of indicated domestic consumption during February decreased six and seven-tenths per cent from the general rate.

FOOD FOR TEN IS DROPPED BY PLANE TO MAROONED ONES

AIRPLANE PILOTED BY LIEUT.
WOOLRIDGE AIDS FOX ISLAND PEOPLE

DROPPED SACKS OF PROVISIONS
AS HE FLEW OVER TREE
TOPS NEAR CABIN

(By United Press)
Northport, Mich., April 21.—Food for ten persons marooned and reported near starvation on Fox Island in Lake Michigan, was dropped from an airplane piloted by Lieutenant Henry E. Woolridge, from Rantoul Field, here.

Unable to find a landing place near the shack in which the nine woodsmen and one woman were quartered, Woolridge released the sacks of food while flying just above the tree tops. He reported seeing five men and a woman grab the provisions and rush into the cabin.

On the beach of the island about four miles from where the little marooned party was quartered, Woolridge discovered the plane piloted by John Miller of Chicago. The Miller plane, carrying 400 pounds of food, furnished by Thomas E. Wilson, Chicago packer, left Northport for Fox Island at noon Friday. The party of four in the machine had a narrow escape when their engine failed over Lake Michigan and they were barely able to make the beach.

Woolridge made a dangerous landing beside the Miller plane and offered assistance. The stranded aviator thought he would be able to reach the island before dark. However, nothing has been heard from him since, and he may have been forced to spend night on the beach. Woolridge returned to Gaylord, Michigan, completing the only successful flight in an effort to bring assistance to the ice bound island.

The party in Miller's plane was unable to reach the cabin as the dense underbrush covered the entire four miles from where they landed to the middle of the island. Two other planes from Selfridge Field, Michigan were wrecked before reaching the island and a machine from Maywood Field, Chicago, piloted by Lieutenant E. H. Lee was forced to land at Charlevoix.

Lee intended to reach the island again today.

Lieutenant Woolridge reported he was unable to find a safe landing place near the cabin, and it was doubtful if the party can be obtained until a tug is about to break through the ice from Northport.

ICE CRUSHING FERRY TO DASH TO RESCUE

Frankfort, Mich., April 21.—A huge ice crushing car ferry steamed up here today preparing to reach Fox Island where ten marooned woodsmen and a party of four aviators are stranded.

Arrangements were made by Thomas E. Wilson, Chicago packer, at whose instigation the airplane was sent to the island to bring food to the ten persons, reported starving, with the Ann Harbor railroad for the car ferry to make the trip.

The island is forty miles from Frankfort and the car ferry hoped to reach the island tonight. Warm weather has resulted in the ice weakening and the car ferry is expected to make the trip without danger.

No word has been received from the plane piloted by John Miller of Chicago since it landed on the island Friday.

Little Falls, April 21.—Julius Witham of Brainerd was arraigned in municipal court this morning, charged with disorderly conduct, perferred by the police department, and was fined \$10 which he paid, with costs. Two others with him were not arrested.

4 MEMBERS OF LONGLEY, VIRGINIA, FLYING FIELD FORCE KILLED WHEN MARTIN BOMBER TAKES A NOSE DIVE AT 500 FEET HEIGHT

(By United Press)
Dayton, Ohio, April 21.—Four men believed to be members of the Longley, Virginia flying field force were killed when a Martin bomber went into a nose dive while five hundred feet above the big Miami River at McCook field today. Two other men were injured. They were rushed to a hospital by rescuers first to reach the scene of the accident.

"HAMMER MURDERESS" HUSBAND IS TAKEN

(By United Press)
Los Angeles, April 21.—Armour Phillips, husband of the escaped "hammer murderess" was jailed today as search for the elusive Clara speeded up. Police are holding Armour as a material witness until they can investigate fully reports and rumors of the presence of Clara in Central America.

"I know nothing of her whereabouts," Phillips pleaded with those who interviewed him in his cell. "Rumors that she is in Honduras are the bunk. I hope that the reports of her arrest are false, and I have always prayed that some time she would find a safe refuge beyond the law."

Phillips began habeas corpus proceedings today to obtain his release. His lawyer is Bertram Harrington, the same who defended his wife.

M. F. Rodriguez, consul from Honduras has wired his government urging that if Clara is found she be immediately returned to the United States.

He emphasizes that such a step would strengthen the bond of friendship between Honduras and the United States and likewise dispel the American impression that Honduras is a safe refuge for criminals.

To Extradite Her

Washington, April 21.—The state department is starting proceedings for the extradition from Honduras of Clara Phillips, wanted by California authorities in connection with the hammer murder of another woman.

Following official information to the department, Secretary Hughes notified the governor of California that Mrs. Phillips was in Honduras. The governor asked Hughes to extradite her.

SUSPECTED WOMAN UNDER ARREST

Sacramento, Calif., April 21.—A woman reported under surveillance in Honduras on suspicion of being Mrs. Clara Phillips, Los Angeles hammer murderess, was placed under provisional arrest this morning, according to Sheriff William Traeger of Los Angeles, who is here to take charge of rushing through extradition papers. Traeger declared he had received a notification of the suspected woman's arrest from the state department at Washington.

DE MAR WINS BOSTON MARATHON 3D TIME

Boston, April 21.—Clarence De Mar of Melrose, Mass., who has a reputation for never running a poor race, again swept across the tape in the 27th annual Boston Athletic association 25 mile marathon, capturing the laurels for the third time. De Mar's time was 2 hours, 23 minutes and 47 2-5 seconds, 5 minutes 37 2-5 seconds less than his record breaking time of last year. De Mar was also a victor in 1911.

The feat of De Mar was regarded as another marvelous stunt in a spectacular career. After finishing second in Gettrude Ederle, national year, he went into obscurity for a long while, but surely made up for it in his work of the last two years.

Ornithological.

Swallows have shown a marked improvement in their nest building, it is said.

Equipment Being Made
Contractor C. B. Rowley has started construction of the canopy tables to be placed in the tourist park. Several of these with first coats of paint added stood on the walk near his shop on South Fifth and Maple streets.

Further improvements contemplated, said Mr. Rowley, include a stairway of 20 feet, a landing, another stairway of 20 feet and then a station housing toilet, shower bath and dressing rooms built in two sections, one for gentlemen and one for ladies. It is probable the stairway may be extended to the river and a dock built and boats added.

HARDING TO SPEAK AT ABERDEEN, S. D., ON TRIP

Washington, April 21.—An address at Aberdeen, S. D., was tentatively added to the list of President Harding's speaking engagements for his western trip at a conference at the White House between the president and Senator T. L. Sterling (rep., S. D.).

GOOD WILL DELEGATES TO SAIL TO FRANCE

(By United Press)
New York, April 21.—Sixty-one Good Will delegates from 14 cities in the United States sail for France today as guests of the American committee for devastated France. Among the delegates were two gold star mothers, Mrs. Anna Chambers of Cincinnati and Mrs. Elizabeth Buswell of Boston. The youngest member of the party is Miss Anna Lauer, 20, of Baltimore.

Prisoner Accompanied To Cell by His 5 Dogs

Winona, Minn., April 21.—When police arrested Herman Maas, age 58, on a charge of intoxication, five dogs accompanied their master to the police station and were locked with him in a cell. Maas paid a fine of \$10 in municipal court for intoxication.

NEW OUTBREAKS MAY FOLLOW

(By United Press)
Mulheim, April 21.—Armed guards patroled the inner city today as a new outbreak is threatened by hunger rioters.

Communist leaders in the two day demonstration which cost the lives of nine men and sixty wounded, have demanded that the city supply compensation for their wounded members and the survivors of their dead. Refusal of this demand may mean a renewal of fighting, it is feared and ambulances are being held ready.

A varied circulation has been given unconfirmed reports that the communists had planned a general uprising in the occupied district of the Ruhr, and that the outbreaks were a part of their revolutionary program.

HOUDINI RIVAL BREAKS SHIP'S IRONS WHEN U. S. TRIES TO DEPORT HIM

New Orleans, April 21.—Thomas Baker, a marine engineer, who immigration authorities declare would have made a first class assistant for Houdini, was on his way back to his native England, a deportee.

Baker, aged 35, stowed himself aboard the American steamer Youngstown at West Hartlepool some time ago and was discovered after the vessel had put to sea.

He was placed in irons but the next day freed himself. He was put in irons again but reappeared shortly and waved his hands gleefully as he exhibited the wreckage of his bonds.

Upon arrival here, Baker was turned over to the immigration authorities. He was placed aboard a steamer in irons and officials believed they had him chained fast, but he appeared on deck within 15 minutes with the remains of the shackles and leaped into the Mississippi river.

He made good his escape but surrendered and consented to return home.

Cleary to open its columns for the general public, and accordingly any one wishing to make a cash contribution to the cause of the Tourist Camp and 10,000 Lakes quota may leave the cash at the Dispatch office and it will be entered in the paper and turned over to the committee chairman, Mr. Cleary.

Equipment Being Made

Contractor C. B. Rowley has started construction of the canopy tables to be placed in the tourist park. Several of these with first coats of paint added stood on the walk near his shop on South Fifth and Maple streets.

Further improvements contemplated, said Mr. Rowley, include a stairway of 20 feet, a landing, another stairway of 20 feet and then a station housing toilet, shower bath and dressing rooms built in two sections, one for gentlemen and one for ladies. It is probable the stairway may be extended to the river and a dock built and boats added.

Condensed Milk Preferred.
Sweetened condensed milk, diluted with hot water, has won a place as a highly esteemed drink among the Chinese of the Swatow district. They prefer this mixture to the excellent fresh milk, containing a high percentage of butterfat, available from the water buffaloes and other cattle maintained in considerable numbers by the farmers.

Job for "Men."

Freddie was much elated at the thought of going downtown to buy his first cloth suit. But he looked dubiously at his mother, who was preparing to go with him. Then his face brightened, and, looking importantly at his father, he said, "Daddy, don't you think us men would know more about buying a suit?"—Exchange.

"Grocery" Stores.

Webster's dictionary gives as one of the meanings of the word "grocery" in the United States a "retail grocer's store." It is quite correct to use it in this sense and to pluralize it, so as to make it unnecessary to say "grocery stores," just as we have "bakeries," etc.

Thought and Habit.
Life, in a way, seems to be an accumulation of habits; physical habits and mental habits. We do things one certain way for years and we think certain thoughts for years. We think oftentimes, just because it is a habit, that what we do and what we think is the right way to do and think. We may have contracted a bad habit and never have known it. We may have been wrong for forty years.—Jarvis S. Hicks.

Drove Through Ghost.
One dark night when I was driving along a lonely road, my horse became frightened and refused to proceed. In looking ahead to discover the cause, I saw a ghostlike figure standing in the middle of the road. Believing that someone was trying to frighten me, I whipped the horse and attempted to run the joker down. I was very much surprised when I ran my horse completely through the ghost—a dense pillar of fog rising from a mud puddle.—Chicago Journal.

LADIES! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will Know

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray, and looks streaked just a few applications of Sage Tea and Sulphur enhances its appearance a hundredfold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a bottle of "Wyeth's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully; besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair disappears; after another application or two its natural color is restored, and it becomes thick, glossy and lustrous and you appear years younger.—Advt.

DIRECTED BY HOBART HENLEY

She mowed the swains down right and left, and awoke to the shallowness of her soul only after she had involved her loved ones in grief and near-tragedy.

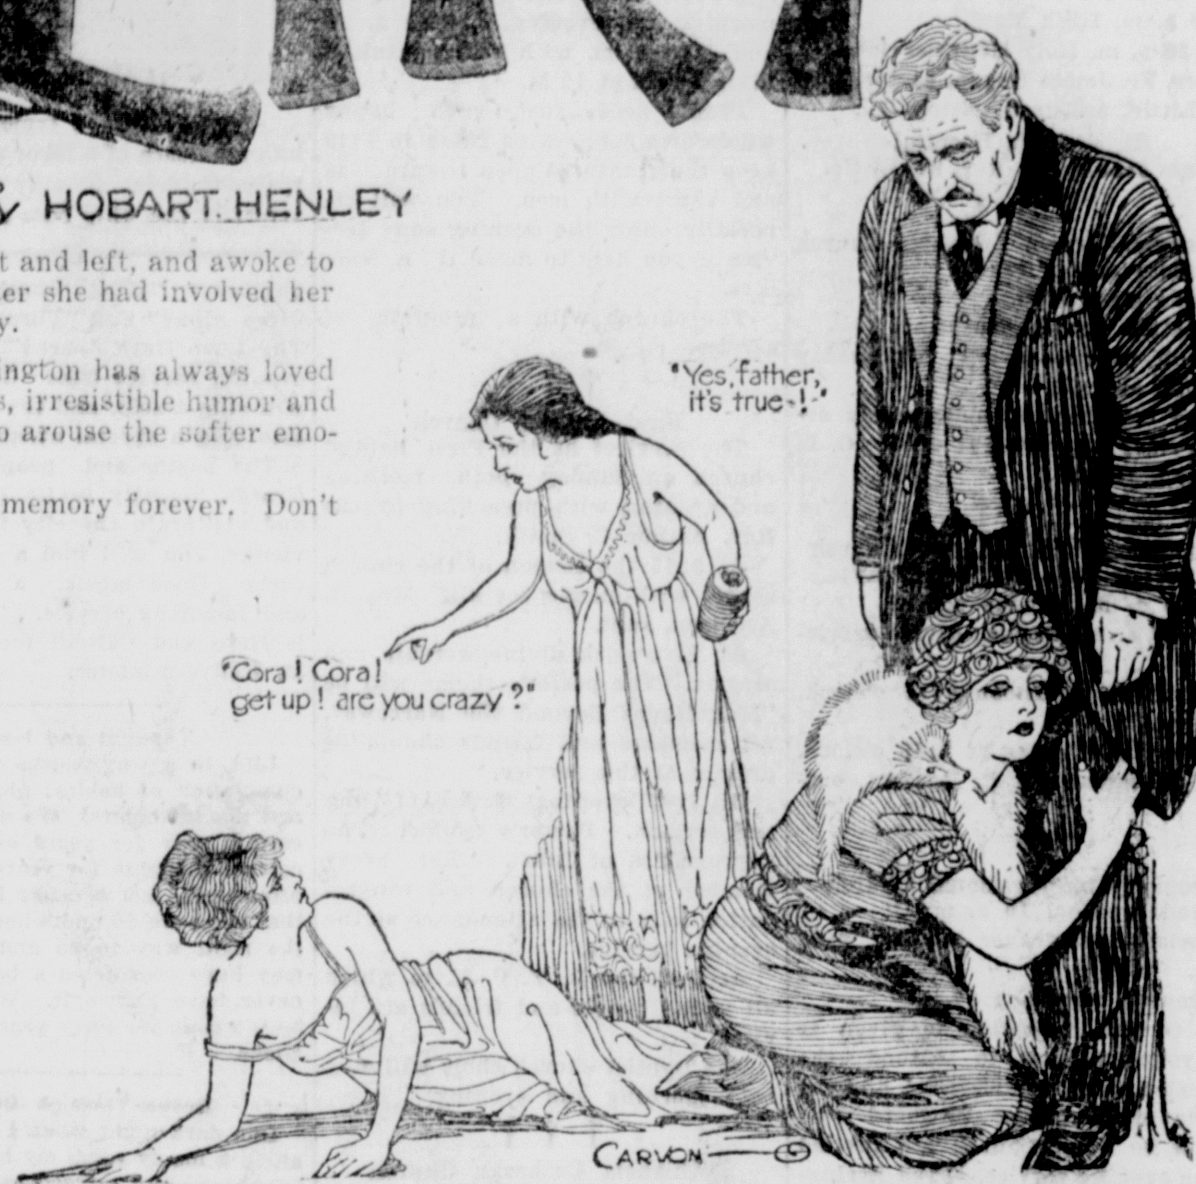

It is such a story as Booth Tarkington has always loved to write—full of dramatic situations, irresistible humor and just enough pathos now and then to arouse the softer emotions.

"THE FLIRT" will live in your memory forever. Don't miss it!

SPECULATIVE BUYING AND SELLING

The department of justice of the government of the United States has moved strongly against those who are largely responsible for the increased prices of sugar that are not justified by the conditions of the market.

Investigations carried on by the department of commerce showed that there is no scarcity of sugar and that the unjustifiable increase in prices is the result of speculation. With these findings at hand the department of justice has made a move that has already resulted in a fall in the sugar quotations.

In filing a petition in equity against the New York Coffee and Sugar Exchange, Inc., and the New York Coffee and Sugar Clearing Association, Inc., the government informed the court that the exchange and the association serve no legitimate or useful purpose in the marketing of raw and refined sugar. These organizations exist for speculative purposes alone and those who operate them are gamblers in a commodity used by the people.

The government has taken the right step in seeking to prevent further speculation of this kind, and the announcement that the department of justice will start criminal proceedings against the exchange and association will not cause the public any grief.

Such revelations do more harm than many other wrongs of our social order. When the consumers see that those who grow the sugar and those who refine it are getting but a reasonable return for their labor and investment—and they do not always get even that—while the consumer is compelled to pay a price that is, to say the least, extortionate, because speculators control the price of the commodity, a resentment is born that often finds expression in attacks upon an order that allows such things to be.

There are indications that the government of the United States is aroused over this matter. Recent legislation, declared constitutional by the United States supreme court, will check speculation in grain. Fraudulent promoters of oil concerns have recently felt the heavy hand of the government, and these, taken together, show that speculative and dishonest methods of controlling commodities, in the interests of those who add nothing to production, but, by manipulating products draw large returns, are to be stopped.

Investigation will disclose that right here is the major cause

for much of the criticism of the present order, and unless checked the resentment engendered promises disaster. To talk of 100 per cent Americanism while allowing these evils to exist does not and will not make a public subservient to the interests that are speculating in the commodities used by the public. Many radicals are radical, not because they are reading books written by radicals but because such conditions as these have turned them against a system that tolerates such abuses, and, disgusted with the system, they turn to books that suggest to them how the system may be changed.

If the present order is to be preserved, and we believe that it is worth preserving when it is freed from its evils, there must be a willingness to choke off the growths that are not natural but are the unnatural offshoots that tend to strangle the order. Many a good tree has been choked by the useless, clinging vines that have sprung from the same soil that gave the tree sustenance. These growths are removed to save the trees, and the useless and destructive outcroppings of our order, splendid in itself, must be removed if the order is to live. Unless destroyed the out-growths of the system will destroy the system itself, as has happened again and again in history.

NEWSPAPERS AND CIVIC GOVERNMENT

The supreme court of Illinois has stated that the newspapers are free to criticize the government of a city. The decision was called for because of a suit brought by the city of Chicago, during the administration of William Hale Thompson, against the Chicago Tribune. The court did not go into the matter of the truth or falsity of the statements made by the newspaper, but it was emphatic in declaring that the individual or the newspaper has the right to criticize the government of a city.

In expressing the court's view of the matter at issue, this statement was made: "It is manifest that the more so-called private property the people permit their governments to own and operate, the more important is the right to freely criticize the administration of government."

In the eyes of the members of the court the suit was so unreasonable that only in the days of the divine right of kings would it have been a reasonable basis for prosecution.

Despite the fact that there has been a marked tendency to suppress criticisms of officials during the past few years, so that anyone who did not agree with the officials of the church has been called a heretic; or by failing to agree with the government a bol-

shevik; or in failing to agree with the present order a socialist, America by the provisions of its constitution which, though subject to attack, is a guarantee of free speech and free press, confers these rights upon citizens. There are times and places where the provisions of the constitution are flouted but when the higher courts are required to rule on the subject, as in this case, the right to criticize is reaffirmed.

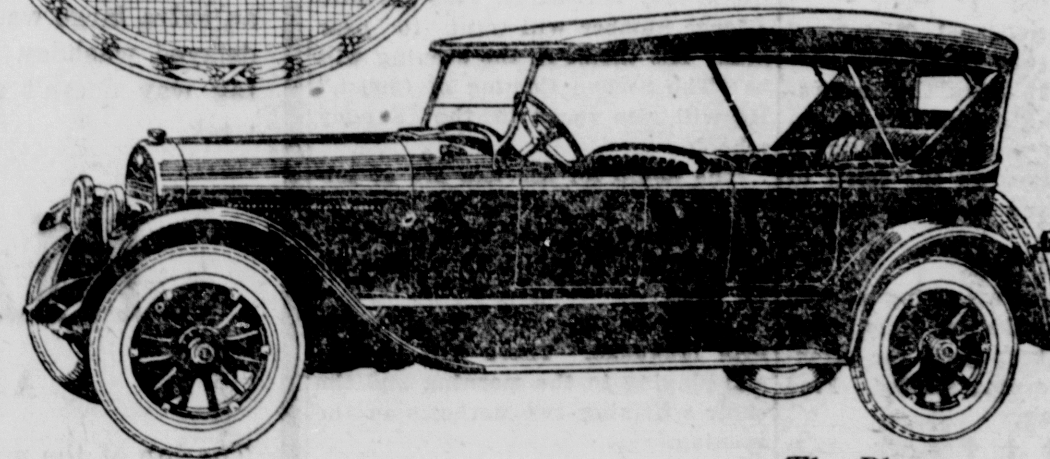

Carping criticism of small matters in municipal affairs is petty and is not justified, but it is unlikely that the Chicago Tribune went too far in anything that is said about the Thompson regime in the city of Chicago.

SPECULATIVE BUYING AND SELLING

THE department of justice of the government of the United States has moved strongly against those who are largely responsible for the increased prices of sugar that are not justified by the conditions of the market.

Investigations carried on by the department of commerce showed that there is no scarcity of sugar and that the unjustifiable increase in prices is the result of speculation. With these findings at hand the department of justice has made a move that has already resulted in a fall in the sugar quotations.

In filing a petition in equity against the New York Coffee and Sugar Exchange, Inc., and the New York Coffee and Sugar Clearing Association, Inc., the government informed the court that the exchange and the association serve no legitimate or useful purpose in the marketing of raw and refined sugar. These organizations exist for speculative purposes alone and those who operate them are gamblers in a commodity used by the people.

The government has taken the right step in seeking to prevent further speculation of this kind, and the announcement that the department of justice will start criminal proceedings against the exchange and association will not cause the public any grief.

Such revelations do more harm than many other wrongs of our social order. When the consumers see that those who grow the sugar and those who refine it are getting but a reasonable return for their labor and investment—and they do not always get even that—while the consumer is compelled to pay a price that is, to say the least, extortionate, because speculators control the price of the commodity, a resentment is born that often finds expression in attacks upon an order that allows such things to be.

There are indications that the government of the United States is aroused over this matter. Recent legislation, declared constitutional by the United States supreme court, will check speculation in grain. Fraudulent promoters of oil concerns have recently felt the heavy hand of the government, and these, taken together, show that speculative and dishonest methods of controlling commodities, in the interests of those who add nothing to production, but, by manipulating products draw large returns, are to be stopped.

Investigation will disclose that right here is the major cause

for much of the criticism of the present order, and unless checked the resentment engendered promises disaster. To talk of 100 per cent Americanism while allowing these evils to exist does not and will not make a public subservient to the interests that are speculating in the commodities used by the public. Many radicals are radical, not because they are reading books written by radicals but because such conditions as these have turned them against a system that tolerates such abuses, and, disgusted with the system, they turn to books that suggest to them how the system may be changed.

If the present order is to be preserved, and we believe that it is worth preserving when it is freed from its evils, there must be a willingness to choke off the growths that are not natural but are the unnatural offshoots that tend to strangle the order. Many a good tree has been choked by the useless, clinging vines that have sprung from the same soil that gave the tree sustenance. These growths are removed to save the trees, and the useless and destructive out-croppings of our order, splendid in itself, must be removed if the order is to live. Unless destroyed the out-growths of the system will destroy the system itself, as has happened again and again in history.

SAFETY COUNCIL OF PHONE COMPANY

J. M. Skogmo, of St. Cloud, District Plant Chief of N. W. Bell Tel. Co. in City

SETS DATE MEETING MAY 4th

Wadena, Staples, Brainerd and Other Exchanges Invited to Session

J. M. Skogmo, of St. Cloud, district plant chief of the Northwestern Bell Telephone Co., is in the city on company business and to inspect business conditions in this section.

The Brainerd exchange will be host to the exchanges of Wadena and Staples on May 4th, at which time a safety council will be held and an accident prevention campaign started.

Telephone employees of Aitkin, Deerwood and Crosby, while not a part of the Brainerd district, will be invited to be present at this meeting, as will also local electric light men.

It is the intention of the telephone company to acquaint its employees with the safety precautions that they are expected to observe and point out the hazards which might cause accidents unless proper care is taken.

This is Mr. Skogmo's third visit to Brainerd, being a comparatively new man in this territory, and he expressed himself as being most favorably impressed with the city, and predicts a very busy season in all lines during the summer and the balance of 1923.

Henry Hoffmann, manager of the local exchange, has returned from St. Cloud, where he attended a conference of the managers in this district, held in the Gopher room of the Breen hotel.

Representatives from Little Falls, Pierz, Milaca, Onamia, Royalton, Sauk Center, Glenwood, Buffalo, Morris, Paynesville, Princeton, and Monticello were in attendance.

A similar conference was held on last Tuesday at Detroit, Minn., for the district covering the western section of the state.

BELETED TOWNSHIP ELECTION RETURNS

Beleted township election returns are being filed with the county auditor, although most of the town clerks have made their reports as required by law.

The latest return is from Long Lake township and is as follows: Chairman, 1 yr—Peter Madsen. Supervisor, 2 yr—Peter Wicklund. Supervisor, 3 yr—Simon Frederickson.

Treasurer, 1 yr—C. F. Maust. Clerk, 1 yr—J. W. Fitzpatrick. Assessor, 2 yr—Walter Lang. Justice, 2 yr—John Steinfeld. Constable, 2 yr—Albert W. Krueger.

Tax voted: Town revenue, \$1,000; Road and Bridge fund, \$2,000.

Club Women—Attention!
Our Biennial Council meeting will convene on May the seventh and close on the eleventh.

A wonderful program is assured, and "Southern Hospitality," such as we have only read about, awaits us. Plans have been made for entertainment that we cannot afford to miss.

Our own Mrs. Winter will be in command. We should all be there to give her our support.

The hotels in Atlanta are many, and one can get rates to suit any purse.

The railroads are generous, granting a fare and a half on the certificate plan. This means a little less than \$62.00, round trip from the Twin Cities—lower berth \$12.00 each way.

The Illinois women want our delegation to join theirs and stop over one day at Chattanooga (Lookout Mountain). An extra \$10.00 covers all expense.

This will make a fine vacation. If it suits your plans better to buy a Mileage Book, good on any railroad, \$99.00 worth of rides for \$75.00 is the arrangement.

If you want railroad reservations, or further information, write to Mrs. W. I. Carpenter, Transportation Chairman, 2201 Grand Ave., So. Minneapolis.

The U. S. Veterans Bureau wishes to place clerical men with any concern in Brainerd who has use for such men. These men have all had commercial schooling particularly with the vocations they will be placed in. They will be given 90 days placement to enable them to get acquainted with the duties of the offices in which they work, after which it will be expected that they are to be retained on the regular payroll of the company or firm.

H. E. Erickson, placement officer, has been in Brainerd the past day and a half endeavoring to find situations for them. He has also been at St. Cloud and Deerwood and this afternoon will look over the field in Ironton and Crosby, and later Aitkin and Milaca.

If prospective employers will notify R. R. Rosell, now at the Ransford hotel, word can quickly be given the veterans of any clerical vacancy.

WATER SYSTEM HEARING IS AGAIN POSTPONED

The first hearing in the condemnation proceedings brought by the city of Little Falls against the Water Power company to secure appraisal of the water distributing system has again been postponed. The hearing was first set for March 16 but was delayed at that time until April 23, since C. Rosenmeier, attorney for the company, was busy in the state senate. The second postponement has been made upon the request of City Attorney Vernon, who is now busy in district court. The hearing will likely be held early in May, shortly after this term of district court has been completed.

Franson Motor Co. Takes Agency of the New Gardner Four Automobile

BRAINERD FIRM IS ACTIVE

Business Organized Last Fall by E. I. Franson, Formerly in Charge Lively Repair Department

Announcement has just been made of the appointment of the Franson Motor Company, as dealers in the Gardner Four.

This is another step forward in the short history of this Brainerd firm, and is taken to indicate both the success of the business and the confidence Mr. Franson places in the prospects for the coming season.

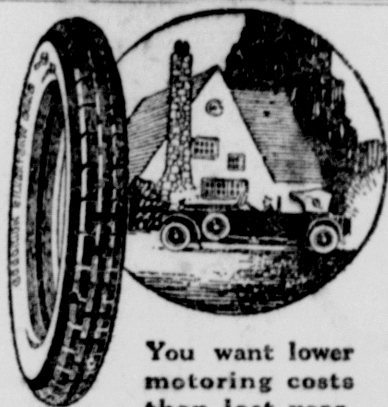

The Franson Motor Co., was organized early last fall by E. I. Franson, formerly in charge of the repair department of the Lively Auto Co. During the winter the company specialized in general automobile repairing, and will continue this service more extensively now that much new equipment has been added to the shop department.

"We feel that we are exceptionally fortunate in obtaining the Gardner franchise," stated Mr. Franson, "because the Gardner Four has become a favorite among buyers of moderate priced cars in a remarkably short time. The Gardner Motor Co., of St. Louis is the eighth largest exclusive manufacturer of four-cylinder cars."

The Gardner, according to Mr. Franson, has a splendid reputation for economy and dependability and the new 1923 models are certain to give even greater satisfaction because of the important improvements which have been made in motor, chassis and in body design.

The engine is a Gardner product and develops 43 horsepower. In size, power and speed it surpasses previous Gardner power plants. One of its important advantages is the five-bearing crankshaft, conceded to be the greatest improvement made in recent years in a four-cylinder motor. The average automobile engine has only two, or at the most, three bearings.

The chief advantage of a five-bearing crankshaft lies in the elimination of the vibration point found at some speed in most motors. These bearings hold the shaft in perfect alignment and prevent whipping, besides reducing shaft and bearing wear to a

HIGH SCHOOL ENTERTAINMENT

In Spite of Rain, Attendance of 400 Was Registered Friday Night

2 COMEDIES WERE PRESENTED

"Sauce for the Gossings," and "Cox and Box," Two Vehicles of Fun

The entertainment at the high school last night was a great success from a financial and artistic viewpoint. In spite of the rain about 400 people came and saw the children perform.

The first comedy given was "Sauce for the Gossings." Taking part in this were Kenneth Nicholson wearing his father's glasses, wrinkled and mustached, as the very stern and dignified father who in the latter part of the play rang around his children in the use of modern slang.

Ione Johnson as the mother, and Lucille O'Connor as the fragile grandmother went him one better.

The children, Eugene Hitch and Marion Bachelder, started out with breezy slang, but reversed their procedure when they were horrified by that same slang used by their elders.

Virgil Quansstrom played the visitor who was led to expect a dignified family of culture and refinement and instead, was vamped by the grandmother and treated to an exhibition of very fluent modern slang.

It didn't take the children very long to reform. The audience got the humor of the situation at once.

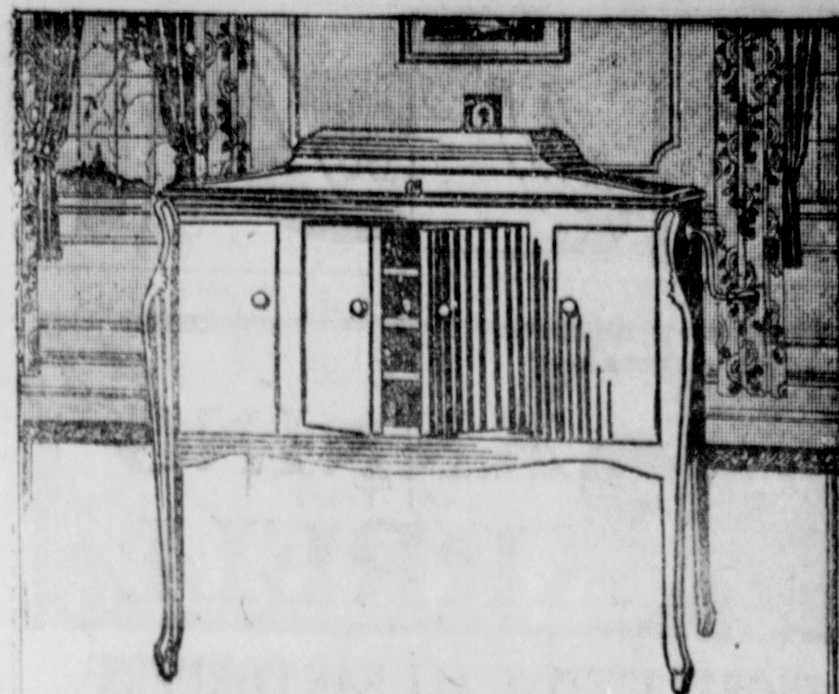

Between acts Walter Herman as "Uncle Mose," entertained them with negro melodies and banjo.

"Box & Cox"

Lloyd Jones and Charles Hoffman in the leading roles kept the audience convulsed with their desperate quarrels over Penelope Ann Wiggins. Dorothy Harris was the poor landlady. They did even better than in their previous performance.

The high school orchestra played before and after.

Those in charge of the play wish to thank the Northern Home Furnishing Co. for courtesies extended.

Did you get that Victrola?

Why go without, why deny your home the benefit and comfort of good music? For a surprisingly modest sum, you can begin at once to own your own Victrola. Come in today, select any model you want and we will deliver it at once. When is so convenient to own a Victrola on our plan, you owe it to your family and yourself to get yours NOW. Why delay? Come in.

The first comedy given was "Sauce for the Gossings." Taking part in this were Kenneth Nicholson wearing his father's glasses, wrinkled and mustached, as the very stern and dignified father who in the latter part of the play ran rings around his children in the use of modern slang.

John Johnson as the mother, and Lucille O'Connor as the fragile grandmother went him one better.

The children, Eugene Hinch and Marion Bachelder, started out with breezy slang, but reversed their procedure when they were horrified by that same slang used by their elders.

Virgil Quansstrom played the visitor who was led to expect a dignified family of culture and refinement and instead, was vamped by the grandmother and treated to an exhibition of very fluent modern slang.

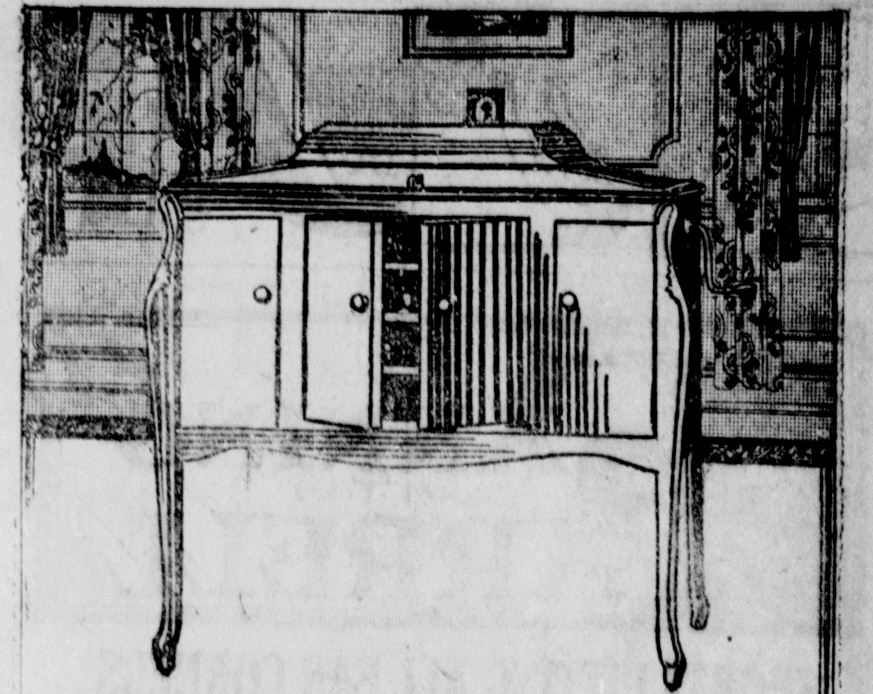

It didn't take the children very long to reform. The audience got the humor of the situation at once. Between acts Walter Herman as "Uncle Mose," entertained them with negro melodies and banjo.

"Box & Cox"

Lloyd Jones and Charles Hoffman in the leading roles kept the audience convulsed with their desperate quarrels over Penelope Ann Wiggins. Dorothy Harrig was the poor landlady. They did even better than in their previous performance.

The high school orchestra played before and after.

Those in charge of the play wish to thank the Northern Home Furnishing Co. for courtesies extended.

Did you get that Victrola?

Why go without, why deny your home the benefit and comfort of good music? For a surprisingly modest sum, you can begin at once to own your own Victrola. Come in today, select any model you want and we will deliver it at once. When is so convenient to own a Victrola on our plan, you owe it to your family and yourself to get yours NOW. Why delay? Come in.

SPORTS HITTING ALL FAR CORNERS

By HENRY L. FARRELL
United Press Sports Editor

New York, April 21.—Since the close of the war, a sport frenzy has seized the old globe by the ears. Athletic activity was jumped into all over the world as a means of forgetting sordid memories and those activities have become all the more fervent when it became realized that everyone was better off with a little play.

In the rejuvenation of sports since the war, tennis, golf and boxing have spread remarkably, and they now rank as the leading international sports. Tennis, as an international game, is already made. It is one game that is played under standard rules in every country on the map. Golf is not very far behind, and boxing is coming fast.

In South America, the greatest strides have been made in the last three years in developing interest in sports. The South Americans are going in for everything. A tennis team from Argentina is an entry in the Davis Cup matches; an Argentine heavyweight, Luis Firpo, is climbing through the boxing ranks as a most formidable opponent for Jack Dempsey, and golf has also seized the Argentines. Water sports have also advanced with great rapidity in Brazil where they boast of several swimmers close to world's record ability.

Brazil had a most impressive looking water polo team at the last Olympic games, but the water in the moat outside the ancient walls of Antwerp, where the water sports were conducted, was so cold that the Brazilians were too greatly handicapped to make their best showing.

Bull fighting was, until very recently, considered the national sport and the only amusement in Mexico, but it fell to old Sam Langford to do the missionary work that turned the southern republic into a great boxing center. Just recently 20,000 Mexicans filled the old bull ring to see Langford fight Balsacs, the Spanish champion, and just before that a bull fight had attracted only a handful of spectators.

Langford, as the heavyweight champion of Mexico, is a very amusing spectacle from the American viewpoint, but "Old Sam" must be given credit for some logic when he said, after he had won the title from Kid Savage: "Well, it ain't much, but I see some kind of a champion at last."

INFALLIBLE SPEAKER CAUGHT SLEEPING IN GAME WITH WHITE SOX

Cleveland, April 21.—It is not often that Tris Speaker, star outfielder of the Cleveland Indians and one of the brainiest players in the game, pulls a "boner," but the players got one on him in the 10th inning of Thursday's game between the Indians and the White Sox.

Speaker was on first and Wanby on third when Guisto grounded to Johnson. The Sox shortstop bluffed a throw to the plate, and then tossed to Eddie Collins, who threw home to head off Wanby. Believing he had been retired, Speaker started off the field, but Collins was not on second base and had Speaker kept going he would have been safe. Before his teammates could make him understand Schalk whipped the ball to Collins for the out.

It probably cost the Indians a run, which would have ended the game then as Summa followed with a long single to right.

ROOKIE STEALS THREE BASES, BUT RECEIVES CREDIT FOR ONLY ONE

Cleveland, Ohio, April 21.—The problem of "stealing" three bases and being credited with only one stolen base was demonstrated here Ray Elsh, recruit White Sox outfielder, stole second in the sixth inning of the game with Cleveland, beating Glenn Myatt's perfect throw. A moment later he sped for third and was safe when "Rube" Lutzke dropped Myatt's assist. Then he sprinted for the plate. Pitcher Edwards shot the ball to Myatt, but it rolled out of the catchers mitt.

Tree Is a Bridge.
The greatest wonder of the Petrified forest is the agate bridge. This is a huge tree trunk, 100 feet long, spanning a 60-foot chasm, says Nature Magazine. The entire tree is made up of agates, jaspers, chalcedony, and other highly colored and handsome stones. In the canyon directly below the agate bridge is a pool of water, and around it grow the only trees in the whole country.

Soap Making.
The art of soap making is very old. Pliny refers in his writings to both hard and soft soap. Remains of a soap maker's shop were discovered in the ruins of Pompeii. Before the invention of soap making the juices of certain plants were used as cleansing agents. Fuller's earth was also used, the method being to spread it over the garment to be cleaned and then to stamp it in with the feet.

WANT BRAINERD IN NEW LEAGUE

The following from the Duluth News-Tribune in regard to a base ball league explains itself.

Play ball!
The shrill cry of the umpire, shouting these magic words, the applause of the baseball fans in the bleachers and the voices of the peanut, hot dog and popcorn vendors again will be heard at Athletic field this year.

Duluth diamond fans will be treated to independent ball this year, the league to be composed of eight teams with probably three or four games each week, according to Darby O'Brien, Chisholm, who was in Duluth yesterday. O'Brien, veteran base ball player and captain of teams in the old Northern league who is working hard trying to put ball on the map as far as northern Minnesota is concerned, will manage the Duluth aggregation.

At a meeting it was decided to send night letters to eight towns asking them to send representatives to attend a meeting at the Chamber of Commerce Saturday.

The cities who will be represented according to present indications, are Hibbing, Virginia, Duluth, Superior, St. Cloud, Brainerd, Little Falls and a nine representing Crosby and Iron- ton. Managers of the teams are working hard to line up players and get the league started by May 10, O'Brien said.

Judge Brady of Hibbing has his team practically signed up, while O'Brien is working daily in gathering a group to uphold Duluth's end; Mike Gallagher of St. Cloud also is getting together a team that will be formidable contenders for high honors and Jack Schmidt at Crosby is working hard to gather an aggregation representative of the town.

In St. Cloud, Brainerd and Little Falls, the league will have three cities in which the fans are baseball crazy. The cities always have had some sort of ball and great rivalry has existed for years between Brainerd and Little Falls for baseball supremacy.

Superior, it is hoped, also will put forth a formidable team.

All in all everything looks rosy for good, fast baseball in northern Minnesota.

Note—The night letter above referred to was brought to Walsh & Anderson, for their consideration.

JOE BUSH KEEPS ON ADVERTISING HIS OWN HOME TOWN

John Moore, former Brainerd boy, is in New York and sent the Dispatch a copy of the New York American of April 11 which referred to a practice game between the Dodgers and the Yanks. It just shows how Joe Bush keeps on advertising his own home town. We quote from the last paragraphs where Bush is referred to:

"In the sixth, with Shriver pitching for the Dodgers, Meusel and Hofman got on, but Ward hit into a double play and Scott grounded to Johnston for the third out. In the seventh Bush went into the box for us.

"In the seventh Witt tacked a fly around the outfield and gave the Dodgers a run, but in the Yankee's half Joe Bush, the pride of Brainerd, Minn., and home run king of Japan, slapped the ball over the center field fence for another home run. Then the Yankees crawled up on the Dodgers, and passed them."

Joe Bush's First Game

Joe Bush in his April 19th game, which the Yanks won 8 to 2 from Boston, got 3 hits in 4 times at bat, 1 put out, struck out 4 and gave 2 bases on balls.

AMUSEMENTS

Great Racing Picture at Lyceum
A capacity audience at the Lyceum theatre last evening testified to the consensus of opinion that Jack Pickford has made a truly notable return to the screen in his latest picture, "Garrison's Finish," will be shown again tonight.

Sunday at the Lyceum
The big attraction at the Lyceum Sunday, Monday and Tuesday will be Mary Pickford in "Tess of the Storm Country" in 11 reels.

"The Flirt" Story of Real Life
Like a moth irresistibly drawn to the flaming candle, so were men drawn to Cora Madison; just a wee side glance from those coy eyes and the damage was done. Yet you couldn't blame Cora; it was as natural for her to flirt as it was to eat, but, like all her kind, there came a time when she had to pay the penalty for her indiscretions.

Booth Tarkington's story, "The Flirt," was one of the most widely read books in the country, and its entertainment value is greatly enhanced by its presentation in screen form. It was made into a magnificent film by the Universal Pictures Corporation, and will be seen at the New Park tonight and Sunday.

There are few persons who have not had a heart-breaking experience with a flirt, because the species comes in both male and female form, hence there are few that will fail to understand the psychology of Mr. Tarkington's story, and, if they are not

now in the midst of a similar experience, to thoroughly enjoy each minute of the performance.

Universal casting directors spent many weary weeks in conning lists of players in order that each character might be fittingly portrayed. The role of Cora Madison is portrayed by that popular star, Eileen Percy, with Helen Jerome Eddy as the plainer

The shrill cry of the umpire, shouting these magic words, the applause of the baseball fans in the bleachers and the voices of the peanut, hot dog and popcorn vendors again will be heard at Athletic field this year.

Duluth diamond fans will be treated to independent ball this year, the league to be composed of eight teams with probably three or four games each week, according to Darby O'Brien, Chisholm, who was in Duluth yesterday. O'Brien, veteran base ball player and captain of teams in the old Northern league who is working hard trying to put ball on the map as far as northern Minnesota is concerned, will manage the Duluth aggregation.

At a meeting it was decided to send night letters to eight towns asking them to send representatives to attend a meeting at the Chamber of Commerce Saturday.

The cities who will be represented according to present indications, are Hibbing, Virginia, Duluth, Superior, St. Cloud, Brainerd, Little Falls and a nine representing Crosby and Iron-ton. Managers of the teams are working hard to line up players and get the league started by May 10, O'Brien said.

Judge Brady of Hibbing has his team practically signed up, while O'Brien is working daily in gathering a group to uphold Duluth's end; Mike Gallagher of St. Cloud also is getting together a team that will be formidable contenders for high honors and Jack Schmidt at Crosby is working hard to gather an aggregation representative of the town.

In St. Cloud, Brainerd and Little Falls, the league will have three cities in which the fans are baseball crazy. The cities always have had some sort of ball and great rivalry has existed for years between Brainerd and Little Falls for baseball supremacy.

Superior, it is hoped, also will put forth a formidable team.

All in all everything looks rosy for good, fast baseball in northern Minnesota.

Note.—The night letter above referred to was brought to Walsh & Anderson, for their consideration.

JOE BUSH KEEPS ON ADVERTISING HIS OWN HOME TOWN

John Moore, former Brainerd boy, is in New York and sent the Dispatch a copy of the New York American of April 11 which referred to a practice game between the Dodgers and the Yanks. It just shows how Joe Bush keeps on advertising his own home town. We quote from the last paragraphs where Bush is referred to:

"In the sixth, with Shriver pitching for the Dodgers, Meusel and Hofman got on, but Ward hit into a double play and Scott grounded to Johnston for the third out. In the seventh Bush went into the box for us.

"In the seventh Witt tacked a fly around the outfield and gave the Dodgers a run, but in the Yankee's half Joe Bush, the pride of Brainerd, Minn., and home run king of Japan, slapped the ball over the center field fence for another home run. Then the Yankees crawled up on the Dodgers, and passed them."

Joe Bush's First Game

Joe Bush in his April 19th game, which the Yanks won 8 to 2 from Boston, got 3 hits in 4 times at bat, 1 put out, struck out 4 and gave 2 bases on balls.

AMUSEMENTS

Great Racing Picture at Lyceum
A capacity audience at the Lyceum theatre last evening testified to the consensus of opinion that Jack Pickford has made a truly notable return to the screen in his latest picture, "Garrison's Finish," will be shown again tonight.

Sunday at the Lyceum
The big attraction at the Lyceum Sunday, Monday and Tuesday will be Mary Pickford in "Tess of the Storm Country" in 11 reels.

"The Flirt" Story of Real Life
Like a moth irresistibly drawn to the flaming candle, so were men drawn to Cora Madison; just a wee side glance from those coy eyes and the damage was done. Yet you couldn't blame Cora; it was as natural for her to flirt as it was to eat, but, like all her kind, there came a time when she had to pay the penalty for her indiscretions.

Booth Tarkington's story, "The Flirt," was one of the most widely read books in the country, and its entertainment value is greatly enhanced by its presentation in screen form. It was made into a magnificent film by the Universal Pictures Corporation, and will be seen at the New Park tonight and Sunday.

There are few persons who have not had a heart-breaking experience with a flirt, because the species comes in both male and female form, hence there are few that will fail to understand the psychology of Mr. Tarkington's story, and, if they are not

now in the midst of a similar experience, to thoroughly enjoy each minute of the performance.

Universal casting directors spent many weary weeks in conning lists of players in order that each character might be fittingly portrayed. The role of Cora Madison is portrayed by that popular star, Eileen Percy, with Helen Jerome Eddy as the plainer
